What is the plan to handle all of the vehicles exiting garages onto 108th Ave NE once the 3 new buildings are completed? There are already massive backups into the garages with people trying to exit since the bike lanes went in and reduced 108th to 2 lanes. Now you are adding three new projects; 555, 600, and 400. There are many individuals that don't have the choice of using mass-transit that seem to be forgotten in all the city planning. Thank you.

A Publicly Answered

Hi Laura, Thanks for sharing your concern about downtown traffic with the completion of new buildings, specifically on 108th Avenue NE. Your comments have been shared with transportation development review and traffic engineering staff. We continue to evaluate long-term traffic strategies on 108th Avenue NE that may help to shorten backups within garages.

When you ask if the person completing the questionnaire has a vehicle, you mean a MOTOR vehicle, I assume, because you clarify the question by saying "car, SUV..." I think you should say, "motor vehicle" then, because as we know, a bicycle is a vehicle - right?

A Publicly Answered

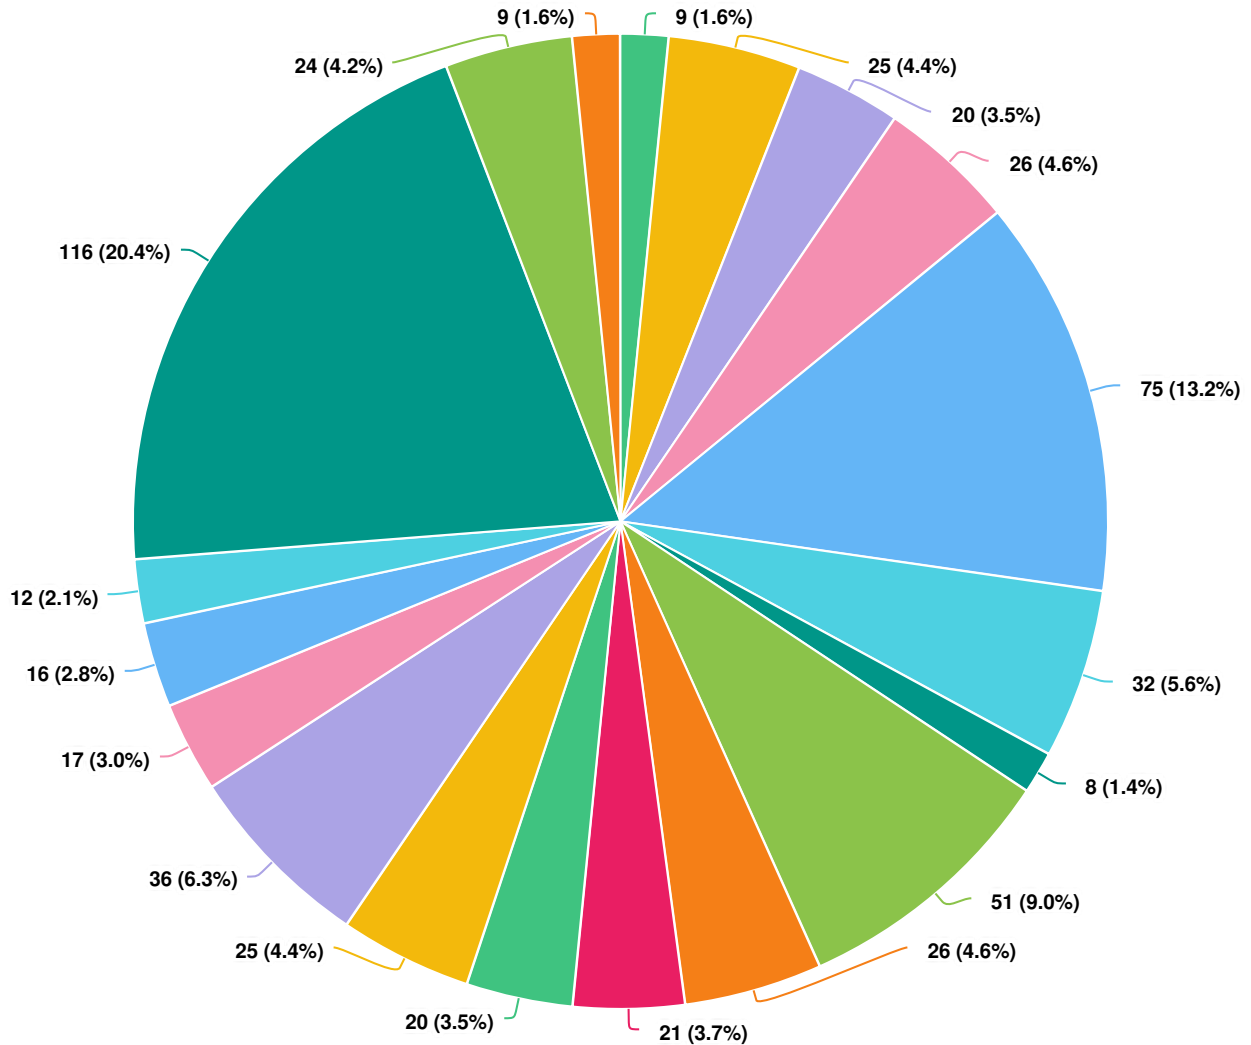

Hi CPetersky - Thanks for the clarifying question. Yes, the question relates to motor vehicle.
