Accompanying Narrative in the Transportation Element

Vision Zero

Bellevue City Council Resolution 9035 (December 7, 2015) endorsed Vision Zero – recognizing that death and serious injury on city streets is unacceptable and preventable. Policies related to Vision Zero are integrated throughout the Transportation Element to support implementing context-appropriate traffic safety measures for all travel modes and to emphasize protecting the most vulnerable users. In a comprehensive, coordinated and programmatic manner, Bellevue will maintain, enhance and monitor progress in a citywide effort to achieve zero traffic deaths and serious injuries by 2030.

WHAT IS VISION ZERO?

Vision Zero is an approach to traffic safety that has the ultimate goal of ending traffic deaths and serious injuries. It is a framework for a multi-faceted approach to create a transportation system that is safe for all users, especially for those people who are the most vulnerable. Components of a Vision Zero programmatic approach to safety include several categories of actions: Education; Encouragement; Enforcement; Engineering; Equity; and Evaluation.
