

Recap: In-person and Online open houses

- In-person
 - Approximately 30 people in attendance
 - 19 comments submitted
- Online
 - Open roughly three weeks
 - 545 unique visits
 - 88 comments submitted

Common themes: Land Use and Streetscapes

- Mixed opinions about redevelopment in the area east of 112th Avenue SE:
 - Those who **did not** favor redevelopment expressed concern about:
 - Maintaining the neighborhood feel along 112th Avenue SE
 - Hesitation to allow higher and denser development, citing congestion, potential loss of sunlight and privacy concerns
 - Those who **supported** redevelopment:
 - Identified ways the redevelopment scenarios could be improved, including better planning for bicycles and pedestrians, removal of sprawling parking lots, and moving development further downtown
- Desire to continue the feel of “Old Bellevue” along Main Street to the redevelopment area and I-405

Common themes: Transportation

- Interest in providing better bicycle infrastructure along 112th Avenue SE, 108th Avenue SE and Main Street
- Concern about increasing cut-through traffic on 108th Avenue SE, particularly through the Bellecrest neighborhood
- Concern about lifting the turn restriction at 108th Ave and Main St
