

LIGHT RAIL PERMITTING ADVISORY COMMITTEE

COMMITTEE MEETING
April 20-3:30PM | ROOM 1E-113

Agenda

- **3:30**
 - Call to Order, Approval of Agenda
 - Co-Chairs Mathews and Van Houten
 - Public Comment
- **3:50**
 - Spring District/120th Station Design and Mitigation Permit CAC Advisory Document
 - Matthews Jackson and CAC
- **4:30**
 - Public Comment
- **5:00**
 - Adjourn

Spring District/120th Station

Design and Context Considerations

The following characteristics are intended to implement the vision for Bel Red:

- A thriving economy anchored by major employers, businesses unique to the subarea, and services important to the local community;
- Vibrant, diverse, and walkable neighborhoods that support housing, population, and income diversity;
- A comprehensive and connected parks and open space system;
- Environmental improvements resulting from redevelopment;
- A multimodal transportation system;
- An unique cultural environment;
- Scale of development that does not compete with Downtown, and provides a graceful transition to residential areas farther to the east; and
- Sustainable development using state of the art techniques to enhance the natural and built environment and create a livable community.

Spring District/120th Station CAC Design and Mitigation Permit Advisory Document

No New Advice Provided By The CAC

GENERAL ADVICE CARRIED OVER FROM THE OTHER ADVISORY DOCUMENTS THAT ARE APPLICABLE AT ALL STATIONS

- Security and safety fences should be designed to meet City's codes. These fences should be designed to minimize blocked views to maintain the idea of a city in a park. No concerns were expressed by the CAC. More project specific information will be included during the Design and Mitigation Permit review stage.
- The CAC recommends that no stations should have up lights that could shine into neighboring buildings or residential areas. All lighting should remain within the confines of the stations to the greatest extent possible.
- The CAC recommends that Sound Transit work with its sustainability group to evaluate a system wide compost collection bin option at its stations.
- The CAC acknowledges that specific details regarding the use of the City ROW will be handled through the review and issuance of Right of Way Use Permits per LUC 20.25M.040.J; however, they want to emphasize the importance of limiting impacts on traffic to the best level technically feasible. No concerns were expressed by the CAC. More project specific information will be included during the Design and Mitigation Permit review stage.

CAC Schedule

Thank You!
